Course

DA 101

Fundamentals of Dental Assisting

Course offers instruction in all requirements for a basic understanding of dentistry and proficiency of the fundamental tasks delegated to the dental assistant by a licensed dentist in the state of Oklahoma. Upon completion of this course students are given a certificate to document completion of the fundamentals course.

Financial and time requirements:

Cost of the course is \$2995 and includes everything but blue or black scrubs to be worn to all classes.

Course runs approximately 10 weeks and is held one 8 hour day per week (usually a Saturday) from 8:00am to 5:00pm. Students participate in a mix of lecture and hands-on training in dental clinic using the materials and methods they learn in lecture. The student will also be required to complete an 80 hour externship which can be completed while course is in progress or after it's completion. There will also be a considerable amount of time which will need to be dedicated to study each week since the course is so condensed.

Prerequisites:

Students will need to be current on their vaccinations, including hepatitis B and Tetanus and be carrying their own health and accident insurance prior to starting class. Before a Certificate of Completion can be issued for the course students will need to be certified in Cardio Pulmonary Resuscitation (CPR). The CPR certification will need to be secured on student's own time and expense, however Owasso Dental Assisting Academy will provide assistance in finding a program if needed.
